

7<sup>th</sup> December, 2017

I am pleased to write a letter of recommendation for Emeka Kanikwu as part of his application to Technische Universität Kaiserslautern. As Emeka Kanikwu lecturer for Math 230 (Set Theory), I found him to be a conscientious and hardworking student.

Emeka's work on the problem sets and exams demonstrated careful attention to detail. He was also able to willingly articulate his questions about the more abstract notions of set theory, a genuine asset for many of his classmates and class dynamic as a whole.

Emeka is an extremely passionate young man who seems equally comfortable with his peers and with faculty. He has talked with me about his goal of obtaining a Master's degree in Computer Science and Software Engineering, and I enjoyed seeing such enthusiasm in an undergraduate about acquiring more knowledge and the highest degree possible. Emeka's commitment to the field of Computer Science and his hard work in pursuing his goals will serve him well in your esteemed university.

Please contact me if I can answer further questions.

Sincerely,

Dr. Patrick Unogwu, Ph.D.  
Lecturer, Mathematics and Statistics Department  
University of Port Harcourt, Rivers State.
